

Description

Kleen San Concentrate is a concentrated quaternary ammonium-based sanitiser formulated for dilution with water for use in food production, food processing and food preparation environments. Designed as a no-rinse final application following routine cleaning, it is suitable for sanitising food contact hard surfaces when used as directed. Its non-perfumed formula provides an economical sanitising solution for commercial kitchens, food processing facilities and other food handling areas. Suitable for spray or wipe application after heavy soiling has been removed, Kleen San Concentrate forms part of routine hygiene and cleaning programs.
