

Description

Stainless Steel Polish is a light mineral oil-based polish formulated to clean, protect and enhance the appearance of stainless steel surfaces. It helps remove fingerprints, water marks and light soiling while leaving a protective film to help maintain a clean, polished finish. Suitable for use on stainless steel appliances, sinks, benchtops and other stainless steel surfaces in commercial and domestic environments. Its low odour formula is easy to apply and helps reduce the build-up of fingerprints and everyday marks between cleaning. Stainless Steel Polish provides an effective solution for maintaining the appearance of stainless steel surfaces.
