Keep containers cool by spraying with water to prevent pressure from building up inside the drums, causing them to burst.			
<b>Extinguishing Media</b>	Not flammable. Not combustible. Use extinguishing media appropriate to the source of the fire.		
<b>Hazards from Combustion Products</b>	In the event of a major fire, this product may emit toxic fumes including carbon monoxide, carbon dioxide and oxides of sulphide.		
<b>Precautions for Fire Fighters</b>	Cool containers with water to prevent containers from rupturing.		
<b>6. ACCIDENTAL RELEASE MEASURES</b>			
<b>Emergency Procedures</b>	Personnel involved in the clean up of large spills should wear appropriate protective clothing as specified in Section 8.
